high volume part in any color
you choose! The parts are hung
on an automated conveyor that
does all the work!*

AMERICAN OVERHEAD CONVEYOR DOES THE WORK

The overhead conveyor pictured here was manufactured and installed by American Overhead Conveyors for Roll-A-Way in 2001. This powder coating system is entirely automated with a conveyor traveling through a wash tank, dry off oven and a cure oven with a temperature of 350 degrees.

- Carries loads up to 135 lbs per foot with a variable speed range of 4' to 12' per minute.
- Ideal for powder coating, paint dip tanks, assembly line, overhead storage, and many more applications.
- Features an automatic lubricating system for the trolley wheels and stainless cable.
- This low maintenance system has not failed once in the last 12 years!

Need a Custom Conveyor? Call American Overhead Conveyors.

Need Powder Coating Services? Call Roll-A-Way.

2013 FEATURED PRODUCTS

It has been another productive year for Payson Casters and its subsidiaries. Here are some of the American-made products that have captured great interest in 2013.

SPECIAL SUPER HEAVY DUTY DUAL WHEEL

These casters were manufactured specifically for the aircraft industry. The high load capacity and the cantilever design allows for easy mobility.

ROLLER CONVEYOR CART

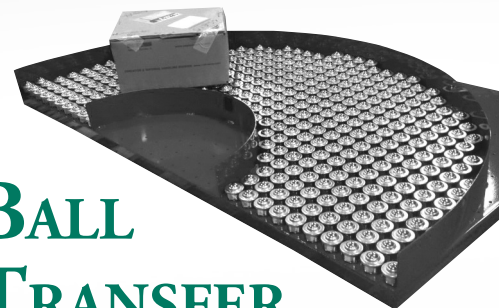

Great for transferring heavy boxes without lifting. Manual flip stop at one end for safety. Handle at one end for easy maneuvering. Can be custom-designed for your application. Other powder coated colors available.

NEW ENGLISH BRONZE FINISH

Our metal parts can be powder coated with an attractive English Bronze Powder Coated Finish. All of the work—including metal part stamping, wheel molding, and powder coating—is done in the USA.

BALL TRANSFER CURVE

This product is custom made for tight radius curves; great for boxes that need to transfer from parallel lines. We can do close centers to normal depending on the size of the boxes.

ST051-4DF

Has a light load range of 100 lbs to 1200 lbs to be used for clean and wash down environments. Embossed for strength with one piece construction. Available in swivel and swivel with brake.

CARPET LIFTER

Now one person can lift a soaking wet carpet and roll it into the dryer, when before it could take up to three people.
